

## EMAIL RESPONSE

Sheldon,

As an employee of the City of Corner Brook - specifically with Water & Sewer in the Engineering Dept - I would be putting myself in conflict of interest by responding to your questions.

I believe that sewage treatment is important for all municipalities and I am also very concerned when it comes to the issue of global warming. In the NDP's platform, Jack Layton has outlined his action plan for the environment, and I support this plan. Obviously, however, this plan is for all of Canada, not only the riding of Humber - St. Barbe - Baie Verte.

I invite you to read the NDP's platform. Out of respect for my employer, however, I am declining to respond to the questions outlined in your letter.

Sincerely yours,  
Mark Kennedy, NDP Candidate  
Humber - St. Barbe - Baie Verte
